There are two types of Hemorrhoids, you may either have an inside hemorrhoid or an external hemorrhoid but only a medical professional can diagnosed this through the proper physical examination, Of the two kinds of hemorrhoids it is often the internal type that leads to bleeding hemorrhoid.

Next, Have a Warm Sitz Bath

Right after the cold treatment is a warm bath for your hemorrhoids. This is popular referred to as sitz bath where the part of your system through waist down is dropped below warm water. All you need is a bathtub and fill it with warm water. It will not matter if your entire body from the neck down is submerged or just from waist down since both ensures that your own anus is exposed to the warm water. The warm water will relax the blood vessels that have turned into hemorrhoids and encourage blood circulation in the anus. It also relaxes the swollen anal tissues and the blood vessels in the anus was warm water will pass through the rectum as well. Do this for 10 to 20 minutes or until the water is no longer comfortable.

The Very First and Fastest Way

Cold Treatment The first treatment you can do is applying ice packs or cold shrink on the hemorrhoids. All you need is ice and put in within an ice pack or perhaps, if you do not have one, inside a small plastic bag and wrap it with a piece of cloth or perhaps a towel. Apply the cold cloth on the affected area, which is the anus, and let it stay there for a while. The coldness will numb the actual hemorrhoids ending the pain and itchiness it inflicts. It will also decrease the swelling. Keep the hemorrhoids cold for about 15 minutes to see results. The effects are quick, the quickest among all cures known so be sure to have ice available when your hemorrhoids start to sting.
